

## 2022 CORK Sailwave Masterclass Seminar Series

**Wednesday, March 23rd, 7-9pm EST: Basic to Intermediate Skills**

**Wednesday, April 6th, 7-9pm EST: Advanced Skills**

**Wednesday, April 13th, 7-9pm EST: Super-Advanced Hints and Tricks**

This 3-part Sailwave Masterclass course will start with a review of the basics of entering results of several races, entering penalties and publishing using CORK's scoring systems and then proceed to teach scoring races with a qualifying series, event set-up and problem-solving common errors. This virtual three evening session is designed for those looking to update and/or advance their existing Sailwave skills to the point of being able to score events independently with ease.

There are no pre-requisites for CORK's Scoring Seminars #1 & #2, but a basic knowledge of Sailwave and a solid understanding of Windows operating system are desirable assets. Participants should have their computers pre-loaded with the latest version of Sailwave to participate and benefit most from this Intermediate to Advanced workshop. The third evening is recommended for long-time advanced Sailwave users that wish to learn little-known features, but all are welcome to join in the fun!

\*Mac users welcomed and a special session will be offered to help with set-up.

*Registrants will receive race data prior to the course which will be employed for demonstration and practice purposes throughout all evenings.*

**Registration can be found here:** [http://www.cork.org/members/sign\\_in.php](http://www.cork.org/members/sign_in.php)

*\*Click on Competitor Registration, Register for an event, choose Sailwave Basic Scoring.*
